

IS YOUR CHILD STRUGGLING WITH READING AND SPELLING?

SO ARE OURS.

ZOOM MEETINGS: Last Wednesdays: starts Sep. 29 7:00 PM See events webpage

PARK MEETUP: Last Thursdays: starts Aug. 26 6:30 PM GARDEN PARK, on the lakefront at South Blvd.

80% of all reading problems are due to dyslexia, a common learning difference that makes reading difficult. It can also cause trouble with other skills, like spelling, writing, and math. Kids with dyslexia can be very bright, which makes their difficulty with reading puzzling to parents and teachers alike. They can learn well, provided they are taught in the right way.

We have formed a parent group in Districts 65 + 202 to support our children in their effort to learn. Check out our website, join a zoom meeting, or come to a park meet-up to learn more.
