Erin's Law Notification Letter

Date

Dear Parent/Guardian,

At the beginning of the year, I shared a letter about our **Human Body and Sexual Health** unit that continues throughout the course of the year. As a reminder, all of the curriculum is aligned to the [National Sex Education Standards](#), which are mandated by the Illinois State Board of Education.

I wanted to specifically inform you that next week, the topics covered in this unit deal with the topics of **safe touches/sexual abuse and consent**. This can be a sensitive but important topic to discuss for our students' safety and wellbeing. Additionally, it is mandated education as a part of [Erin's Law](#). As a reminder, we have school mental health professionals who are available to students throughout the school day and as this lesson is taught, as well as to you to reach out to with concerns. Let me know if you need help getting in touch with them. If you need resources to continue the conversation about personal safety at home, [Amaze.org](#) is a great resource.

If you do not feel that this discussion is right for your child(ren) you have the right to opt them out by letting me know in writing, and I will make sure that they have another activity and space to work when this lesson is conducted.

Thank you,
